Research Interests

I am working with professor Shan Lu on performance and scalability problems of **data processing and data analytics systems**.

Research Projects

- 2016–now **Hyperloop**, an ongoing research project that aims at detecting and solving performance problems for web applications built with ORM (Object-Relational Mapping) frameworks, mainly Ruby on Rails .
- A comprehensive study on existing open-source applications built with Ruby-on-Rails
 - A static-checker to identify and solve some of the common performance inefficiencies found in our study.
- 2017–now **PowerStation**, A RubyMine plugin to automatically identify performance-related issues.

Education

- 2016–now **Ph.D in Computer Science**, University of Chicago, Chicago.
- 2011–2015 **BEng in Software Engineering**, Fudan University, Shanghai, 3.61/4.00.
Rank 5/79
- 2013–2014 **Exchange in Computer Science**, National Tsinghua University, Taiwan, 4.21/4.3.

Publication

- 2018 **Junwen Yang**, Cong Yan, Pranav Subramaniam, Shan Lu, Alvin Cheung, How not to structure your database-backed web applications: a study of performance bugs in the wild, *40th International Conference on Software Engineering (ICSE)*.
- 2017 Cong Yan, **Junwen Yang**, Alvin Cheung, and Shan Lu, Understanding Performance Inefficiencies in Real-world Database-backed Applications, *26th Conference on Information and Knowledge Management (CIKM)*.
- Presentation at Singapore

Award

- 2017 **Travel grant**, from 26th Symposium on Operating Systems, SIGIR, and 26th Conference on Information and Knowledge Management.
- 2017 **CERES Outstanding Research Award 1st Year Graduate**.

Internship

- 2014–2015 **Student Consultant, MSRA**, Beijing.
◦ Work on better scheduling transient resources to run data-intensive jobs for distributed systems such as Hadoop
Supervised by lead researcher Dr. Zhengping Qian.
- 2014.3– **Software Development in Test(SDET) intern, EMC**, Shanghai.
2014.9 ◦ Automate testing frameworks of Mozy, a cloud platform.
◦ Create incremental code coverage rate finder.
Supervised by Aaron Zhang.

Teaching Assistance

- 2016 **Computer security**, *University of Chicago*, Ariel Feldman.
2014 **Discrete Mathematics**, *Fudan University*, Yiming Zhao.

Service

- 2018 **ACM-W mentor program**.
2018 **compileHer (FEMMES) Tech Capstone Teaching**.
